Dari-
Thanks for the conversation earlier this afternoon. I have discussed it with my client, Robert Deeb, and we would like to request a 30 day deferral on the above referenced Special Use Permit Application This will give us time to regroup and determine if there is another design, use, or other conditions that may be more appropriate or better mitigate some of the concerns we discussed. If you need a formal letter from me on this please let me know, otherwise I will assume our 30 day deferral request is acceptable.
Thanks,
Steve
