DOCUMENT 00 91 13 – ADDENDUM

ADDENDUM NO. 2

PROJECT: MCPSA Plum Creek – Bethel – Riner Water System Interconnection
Division 1 and Division 2
Montgomery County Public Service Authority
755 Roanoke Street
Christiansburg, VA 24073

ENGINEER: Hurt & Proffitt, Inc.
1861 Pratt Drive – Suite 1100, Blacksburg, VA 24060

Receipt of the addendum shall be acknowledged on the bid form. The bidding requirements and Contract Documents and Specifications dated January 12, 2022 for the above project are revised and clarified as listed below.

GENERAL CLARIFICATIONS:

1. To account for the potential escalation of material costs for the project the Owner will allow for an adjustment of bid prices. Within 48 hours of the bid opening the lowest responsive, responsible bidder will be required to submit original paperwork from material suppliers showing the unit costs for all materials to be supplied for the project. This will establish the allowance for material costs for the project. The Contractor will then submit actual material costs with each pay request and shall demonstrate actual additional incurred material costs. Each Bid Item will then be adjusted to compensate for additional material costs to a maximum of 10% of the original unit cost of each Bid Item.
2. The project is not located within the limits of the City of Radford.
