

COUNTY LAUNCHES MOBILE WEBSITE

MontgomeryCountyVA.gov

April 12, 2012

Montgomery County, Virginia – The County has launched a new mobile-friendly website design that makes it easier to browse MontgomeryCountyVA.gov on the go!

Montgomery County's Public Information Office discovered approximately 10 percent of all MontgomeryCountyVA.gov visits were made by users via mobile devices such as an iPad or smartphone. As the number of people using smartphones and tablets continues to grow rapidly, so has the need for streamlined websites to allow for optimal speed and viewing with a smaller screen.

The mobile site boosts Montgomery County's customer service by making popular features easy to find. Mobile users have complete access to event calendars, department phone numbers, site search, social media connections and news. There is also a link to the full site.
