I PURPOSE: The intent and purpose of this Request for Proposal (RFP) is to establish a contract, through competitive negotiation, with a qualified consulting firm to provide a Fire and Rescue Services Comprehensive Assessment of Current and Future Needs for Efficient and Effect Services Delivery for the County of Montgomery County, Virginia herein after referred to as “the County”.

II BACKGROUND:

A. General Background

Montgomery County is located in the southwestern part of Virginia in the region known as the New River Valley. This region takes its name from the New River, the nation's oldest and the world's second oldest river, and includes the counties of Floyd, Giles, Montgomery, Pulaski, and the City of Radford. The County has a land area of approximately 389 square miles and lies in the broad picturesque area between the Appalachian Plateau and the Blue Ridge Mountains. Topography varies from gently rolling to steep mountainous terrain, with elevations varying from 1,300 to 3,700 feet above sea level. The majority of the County is at an elevation of 2,000 feet.

Today the Towns of [Blacksburg](#) and [Christiansburg](#), the County seat, are the population centers of the County and are located approximately 35 miles southwest of the City of Roanoke. Blacksburg is home to [Virginia Polytechnic Institute and State University](#) (Virginia Tech). Founded in 1872 as a land-grant college, Virginia Tech is the largest university in Virginia and one of the country's leading research institutions. The County had a 2020 population of 100,839. (This includes two incorporated towns, Blacksburg and Christiansburg, with a combined population of approximately 67,365.)

The County is governed by an elected seven-member Board of Supervisors who appoints a County Administrator.

B. Specific Background

Montgomery County Virginia, is home to just over 100,000 residents within its 389 square miles. The County also has two of the largest towns in Virginia, the Town of Blacksburg and the Town of Christiansburg. Home to Virginia Tech, a major land grant and research university and the largest county employer, other economic sectors include advanced manufacturing, healthcare, agriculture, technology, IT, a large retail sector and a host of small businesses.

Montgomery County relies heavily on a combination system for fire and emergency medical services, including both volunteer agencies and career departments within the County, two towns and the university. This combined system helps provide comprehensive coverage across the entire county.

The volunteer system comprises both fire and rescue agencies. Six fire departments and seven rescue squads/departments provide services across the county. A total of 435 volunteers are active.

Career staff within the County is currently at 37 employees and is expanding to 50 in 2025, providing 24-hour fire and EMS services in the Elliston and Riner districts. The Town of Christiansburg has a total of 20 (5 and 15) employees providing both fire and ems services with the support of volunteers. The Town of Blacksburg has a total of four employees (2 and 2) to support both completely volunteer fire and rescue departments. Virginia Tech supports a student-led volunteer rescue squad serving the direct campus area.

The County also provides the primary Emergency Management Services for the entire county through the paid Montgomery County Fire and EMS Department.

Annually, the county experiences approximately 3,000 calls for fire services and 11,000 calls for EMS services across all agencies. The NRV911 Authority provides all 911 communication and dispatch services within the county to all fire, ems/rescue, and law enforcement agencies.
